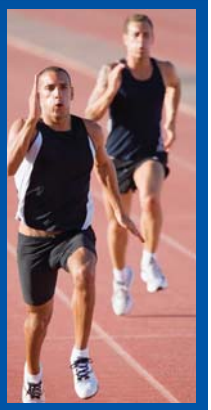
Athletic Training

Keeping You In The Game



Prevea's licensed athletic trainers specialize in preventing, recognizing, managing and rehabilitating injuries resulting from physical activity. The Sports Medicine teammates include physical and occupational therapists, and board-certified orthopedic surgeons who together provide the complete package of care.

Our commitment and specialized training provides you with superior and dependable service.

Licensed athletic trainers work with the active public at the Prevea Ashwaubenon Health Center and also at 11 local high schools, the University of Wisconsin-Green Bay and St. Norbert College—where they oversee the safety of all high school and college athletes throughout the year. They also keep people safe during many other community events including the Cellcom Green Bay Marathon, Prevea Titletown 3-on-3 Basketball Tournament and the Double Blitz Football Camp.

ATHLETIC TRAINING

Licensed athletic trainers are health care professionals specialized in preventing, recognizing, managing and rehabilitating injuries that result from physical activity.

As part of a health care team, Prevea licensed athletic trainers work in cooperation with board-certified orthopedic surgeons, physical therapists and occupational therapists to give clients the best care.
