INFORMED CONSENT (INCLUDING TELEMENTAL HEALTH SERVICES)

Consent to Evaluate/Treat: I voluntarily consent that I will participate in a mental health (e.g. psychological or psychiatric) evaluation and/or treatment by staff from Prevea Behavioral Care, I understand that following the evaluation and/or treatment, complete and accurate information will be provided concerning each of the following areas:

a. The benefits of the proposed treatment.
b. Alternative treatment modes and services.
c. The manner in which treatment will be administered.
d. Expected side effects from the treatment and/or the risks of side effects from medications (when applicable).
e. Probable consequences of not receiving treatment.

The evaluation or treatment will be conducted by a psychiatrist, psychiatric nurse practitioner, a licensed therapist or an individual supervised by any of the professionals listed. Treatment will be conducted within the boundaries of Wisconsin Law for Psychological, Psychiatric, Nursing, Social Work, Professional Counseling, or Marriage and Family Therapy.

Consent for Telemental Health Services:
I understand that telemental health services involve use of electronic information and communication technologies by a health care provider to deliver services to an individual when he/she is located at a different site than the provider. I understand online access to staff at Prevea Behavioral Care is provided through EPIC video visits.

Telemental health services have risks, including but not limited to, poor resolution of transmitted data such as images, delays in treatment and evaluation due to equipment failure, and unauthorized access to third parties during data transmission. I understand I will be informed on the nature of the telehealth visit, the potential benefits, and risks (including those identified above) in the visit.

1. Benefits to Evaluation/Treatment: Evaluation and treatment may be administered with psychological or psychiatric interviews, psychological assessment or testing, psychotherapy, medication management, with expectations regarding the length and frequency of treatment provided. It may be beneficial in treatment to understand the nature and cause of any difficulties affecting daily functioning, so that appropriate recommendations and treatments may be offered. Uses of this evaluation include diagnosis, evaluation of recovery or treatment, estimating prognosis, and education and rehabilitation planning. Because treatment often involves discussing unpleasant aspects of your life, you may experience uncomfortable feelings like sadness, guilt, anger, frustration, and helplessness. Treatment can lead to better relationships, solutions to specific problems, improved cognitive or academic/job performance, health status, quality of life, awareness of strengths and limitations and significant reductions in feelings of distress

2. Consequences of not receiving treatment: Possible outcome of not receiving treatment include a deterioration of lifestyle, to include family life, effectiveness in school or work, and possible deterioration of physical health.

3. Charges: Fees are based on the length or type of the evaluation or treatment, which are determined by the nature of the service. I will be responsible for any charges not covered by insurance, including co-payments and deductibles that apply to my telemental health visit. Fees are available to me upon request.

4. Confidentiality, Harm, and Inquiry: Information from my evaluation and/or treatment is contained in a confidential medical record at Prevea Health, and I consent to disclosure for use by Prevea Behavioral Care staff for the purpose of treatment planning and continuity of care. Per Wisconsin mental health law, information provided will be kept confidential with the following exceptions: 1) if I am deemed to present a danger to myself or others; 2) if concerns about possible abuse or neglect arise; 3) if a court order is issued to obtain records; or 4) situations of acute care where medical information is needed for treatment planning. I understand that the laws that protect the confidentiality of my personal information also apply to telemental health.

5. Discharge Policy: There are circumstances under which I may be involuntarily discharged. I have read and understand the discharge policy of the clinic.

6. Right to Withdraw Consent: I have the right to withdraw my consent for evaluation and/or treatment at any time by providing a written request to the treating clinician. I understand I have the right to withhold or withdraw my consent to the use of telemental health during my care at any time, without affecting my right to future care or treatment.

7. Expiration of Consent: This consent to treat will expire 15 months from the date of signature, unless otherwise specified.

I have read and understand the above, have had an opportunity to ask questions about this information, and I consent to the evaluation and services for treatment, including telemental health. I also attest that I have the right to consent for treatment. I understand that I have the right to ask questions of my service provider about the above information at any time.

TELEMENTAL HEALTH FREQUENTLY ASKED QUESTIONS

Your insurance plan allows you to access Prevea Behavioral Care services through your computer, tablet or smart phone.

1) How do I get started with scheduling a telemental health appointment?
At the initial virtual session, the provider will review your patient rights and consent, provide education on telemental health services, and gather information relating to your presenting problem so the provider can determine treatment and make recommendations for you.

In case of emergency after normal working hours, you may call Prevea at (920) 272-1200. Prevea Care After Hours offers a convenient way for Prevea Behavioral Care patients to seek guidance they may need. Prevea Care After Hours is staffed by our experienced team to ensure the continued care of our patients after the office is closed. When calling Prevea Care After Hours, the triage nurses will have access to your medical records, which will help them individualize your care.

In case of a mental health emergency, you may also call (920) 436-8888 to access the Crisis Intervention Center.

2) What are some benefits of telemental health?
Some benefits of telemental health include reduced travel time and/or costs, decreased childcare or elder care issues, increased access to specialized and overall better health.

3) Are there any risks related to telemental health ?
Online access to a Prevea Behavioral Care provider has risks, including, but not limited to, delays in treatment and evaluation due to equipment failure, inoperability of EPIC video visits, and unauthorized access by third parties during data transmission.

4) What equipment do I need for a telemental health appointment?
You can access telemental health services from any web-enabled device (smartphone, tablet, laptop or desktop).

A My Prevea/My Chart account is not required for virtual appointments. However, if you would like to set up a My Prevea/My Chart account, Prevea Health will be happy to assist you in obtaining an activation code.

5) How does my information remain confidential?
All laws and regulations related to confidentiality of mental health and substance use treatment will also apply to all telemental health visits. Your provider will review confidentiality policies at your initial appointment.

In order to make steps to protect your confidentiality, here is a list of recommendations:

- Participate in sessions in a private location where you cannot be heard by others.
- Use a modern browser (Chrome, Safari on MACS, Edge, Firefox). If you don't have one of these browsers, you may download Chrome or Safari for free.
- Password protect any technology you will be using for telemental health.
- Always hang up and log out once virtual services completed

How do I start my visit with my provider?

If I do not have My Prevea/My Chart account

a. Office will provide you a direct join link either e-mail or text depending on your preference that can be used to access your video visit
b. The link can be opened on a laptop, computer or smart phone
c. After you select the link, the web browser will open with the video visit and a hardware test will be run.
d. After the hardware test is completed, click "Join call" to enter the video visit

If I have a My Prevea/My Chart Account

a. Go to My Prevea/My Chart website
b. Log in using your username and password
c. From home screen access visits icon and select "appointments and visits"
d. Go to appointment and select "details" (E-check in is available but not required.)
e. To join the video visit, click "begin visit" (Box will be grey if more than 15 minutes prior to appointment)
f. After click "begin visit" browser will open "EPIC telehealth" which will run a hardware test
g. Click "join call" when prompted

6) What if I have problems with the technology?
If you have questions or concerns about to access My Prevea/My Chart, or logging onto your video visit, please contact the MyChart Patient Support Line Toll Free at 866-312-5023

In addition, if you are having any technical difficulties, please call Prevea Behavioral Care at (920) 272-1200 so your provider can be made aware.

7) Does insurance pay for telemental health?
Telemental health appointments are covered by your insurance.

8) How do I schedule , cancel or reschedule a telemental health visit?
Please call Prevea Behavioral Care (920) 272-1200 and staff will be happy to assist in scheduling, cancelling, or rescheduling a telemental health or future face-to-face appointments.

Request for Medical Care

Patient Name _____ _____
(Last) (First) (Middle) (Date of Birth)

I. Medical Care Request and Authorization

I understand that I may have a condition that requires medical care. I am requesting and authorizing medical care by Prevea Health, any of the physicians associated with Prevea Health and other health professionals who are associated either with Prevea Health or the facility at which the medical care is rendered.

I am aware that medicine is not an exact science and I acknowledge that no guarantee has been made to me concerning the results of my medical care. I understand that unforeseen conditions may arise during the rendering of my medical care and I hereby authorize Prevea Health and its designees to perform any other procedures they deem appropriate in the exercise of their professional judgment to address such conditions if I am otherwise unable to consent.

I recognize that I may, at any time, be a participant in and make decisions regarding my health care, including the right to accept or refuse medical or surgical treatment, the right to formulate advanced directives and to provide any such directive for my physicians and health care providers to be aware of and to rely on.

I understand that students under appropriate supervision may observe or participate in my care; however, I have the right to refuse such observation or participation at any time.

II. CONSENT TO TELEPHONE CALLS (including WIRELESS), EMAILS, TEXTS:

If at any time I provide a telephone number through which I may be contacted, I consent to receive calls (including autodialed calls and pre-recorded messages), emails and text messages at that number from Prevea Health, its successors and assigns, and the affiliates, agents and independent contractors, including servicers and collection agents, regarding the services rendered, or my related financial obligations. I understand I may receive calls, email and text message communication regarding services or activities conducted on behalf of Prevea Health.

III. Financial Agreement

I understand that I am financially responsible for charges incurred for medical care rendered by Prevea Health. I understand that government payers and insurance companies may have restrictions on reimbursement for medical care rendered by Prevea health. These restrictions may include pre-certification, use of designated facilities, frequency of tests performed, non-covered services, deductibles, co-payments and other requirements. I understand that it is my responsibility to comply with such restrictions and that I will be personally responsible for any charges not reimbursed by other payers, to the extent allowed by applicable law.

If you are here for an office visit, please be aware that we will bill you for your office visit. Additionally, we may also bill you for: (i) additional services ordered by your provider in connection with your visit, including, but not limited to, laboratory tests and radiology services; and (ii) additional procedures performed by your physician during your office visit. Please be advised that additional services and procedures may be subject to your insurance plan's benefits, as well as deductibles, coinsurance and copayments required under your plan.

If you have any concerns regarding potential charges, please contact your insurance company with specific questions about what may or may not be covered. We will be happy to assist you by providing any medical information your insurance may need to determine your coverage.

We would be happy to answer any questions you may have about prices associated with your care. You may contact Prevea Health's Price Estimation Line at (920) 496-4700 for assistance.

I hereby authorize my insurance company or their payer to make payment directly to Prevea Health for services provided to me or to anyone else covered by my insurance for whom I am responsible. I understand that I am financially responsible to Prevea Health for charges not paid by my insurance or other payer, to the extent allowed by applicable law. I understand all balances are due within 30 days. In the event of default, I agree to pay all costs of collection including reasonable attorney fees.

PHOTOGRAPHS, AUDIO/VIDEO RECORDINGS: I understand that photographs, videotapes, recordings, digital or other images may be recorded by Prevea Health to document my care. I understand that Prevea Health will retain the ownership rights to these images however; I may be allowed to access/listen to them or obtain copies whenever possible. Images that identify me will be released and/or used outside the organization only upon written authorization from me or my legal representative or as allowed by law.

Changes to access to your records in My Prevea

MyPrevea has the benefit of allowing patients to request refill prescriptions and review portions of your medical information. We are excited to announce that beginning March 8, 2021, MyPrevea will be available for our Behavioral Care/Substance Use patients. As a patient, you will now be able to view your information on-line, including but not limited to progress notes, assessments, medications, telephone encounters, etc. We are making this change to comply with the 21st Century Cures Act, federal legislation designed to give patients improved access to their medical information allowing patient to actively engage in their care.

Please be aware that anyone you have granted proxy access to within MyPrevea will also be able to see this information. If you would like to adjust proxy access, you can do so directly through MyPrevea or you may ask a member of your care team.

Records of Minors

Patients 12 and under. Parents/guardians of children under the age of 12 may have full access to their children's health information via MyPrevea. This includes all notes, medications, appointments and immunizations.

Patients 12-17. Minors have added rights of privacy regarding aspects of their medical information. Parent/guardian access is automatically converted to limited access, which includes the ability to view immunizations. If parents/guardians would like full access to the minor's information the minor may provide written consent and access will be expanded to allow for an ability to review and track medications, view allergies, lab and test results and see all notes created, including HIV, STD and pregnancy test results, and all mental health notes and related care. The minor may revoke the parental/guardian MyPrevea access at any time.

Please note, patients and parents of patients under age 18 will continue to have the option to request past paper records with a signed release of information.

If you have any concerns about these changes, please discuss them with your provider at your appointment. For example, you may already have proxy access in place for your child or spouse that was signed with their medical providers. We may want to discuss this access in relation to mental health records now being viewable in MyPrevea and how that may impact your family. We also recognize the content of mental health and substance use records can be confusing to understand. We are happy to explain what a typical therapy or psychiatry note looks like and what you can expect to see with your access.

If you don't have access to MyPrevea, we will be happy to sign you up.

We welcome the opportunity to be involved in your care, and the care of your children, in any way we can.

Sexually Transmitted Infection, Communicable Disease Risk Factors, and/or Prenatal Care Coordination

HIV/AIDS

HIV/AIDS is a viral infection that can make a person very sick or even cause death. HIV can be transmitted through sexual contact, sharing needles to inject drugs, and mother to baby transmission during pregnancy, birth, or breastfeeding.

To protect yourself and others get tested at least once or more often if you are at risk. Use condoms during every sexual encounter. Limit your number of sex partners. Don't inject drugs, or if you do, don't share needles or syringes.

Hepatitis C

Hepatitis C is a viral infection that attacks your liver. It is spread, most commonly through the exposure to blood of an infected person by sharing contaminated needles. It is also spread by sexual contact, and mother to baby during pregnancy.

To protect yourself and others, get tested and use condoms during every sexual encounter. Don't inject drugs or, if you do, don't share needles or syringes.

Tuberculosis

TB (tuberculosis) is a disease caused by germs that are spread from person to person through the air. TB usually affects the lungs, but it can also affect other parts of the body. TB is spread when an infected person sneezes, speaks, or sings. The germs stay in the air for several hours.

To protect yourself and others get tested if you think you have come in contact with a person with known TB.

If you have questions or concerns about any of these communicable diseases, talk to your primary care provider or Behavioral Care provider for a referral to medical care.

Using drugs and alcohol during Pregnancy

Using drugs and alcohol during pregnancy can lead to harm of the unborn child including premature birth, low birth weight, and behavior problems as the child gets older.

If you are or think you may be pregnant, speak to your primary care physician immediately. If you do not have a primary care provider, talk with your Behavioral Care provider for a referral to medical care.
