

TELEDENTISTRY

Virtual dentistry options

YOU'VE GOT A DENTIST AVAILABLE, DAY OR NIGHT

Dental emergencies don't always happen during regular office hours. That's why Delta Dental of Wisconsin members have access to 24/7 dental care, whenever and wherever, through virtual dentistry appointments.^{1,2}

During a virtual visit, a dentist provides an online consultation via video conference to address your problems, offer a diagnosis, and determine if you need to schedule in-person care.

Your regular provider may already offer virtual appointments. But you can also access a provider online through Teledentistry.com. Online appointments are considered an in-network service.

¹ Delta Dental virtual visits are only available to Delta Dental of Wisconsin members whose plans include coverage for oral exams.

² This service supplements your current plan coverage and should be used after business hours on holidays and weekends, or when your regular dentist is unavailable. A virtual visit delivered by Teledentistry.com is considered a problem-focused examination (D0140) under your plan.

USE A VIRTUAL VISIT WHEN:

- Experiencing an after-hours dental issue
- Your regular provider is not available
- Traveling and need immediate dental assistance
- Facing an urgent dental need but can't reach your provider
